

CFPM FALL WORKSHOPS

**PRESENTED BY: ISFIS &
PIPER JAFFRAY**

ISFIS and Piper Jaffray invite you to this learning opportunity. Together, we are hosting a series of workshops to complete an in-depth five-year projection model for your district. We will be utilizing the Comprehensive Financial Projection Model (CFPM) developed in partnership with our entities. The CFPM provides you with a 5-year projection of property tax rates, unspent authority budget, solvency ratio, a detailed aid and levy worksheet for FY 2021 – FY 2025, and more. You will leave with a district specific 5-year presentation that can be shared with your Board and public.

There is no charge for the software, however, to cover the cost of the conference and meal, we will charge \$75 for the first person and \$50 for each additional person from the same district. We encourage attendance as a Superintendent & SBO team.

Agenda, Details and Registration online at
