

WriteToLearn®

Growing Literacy
for Every Student

WriteToLearn™ is a fully automated online literacy tool for building writing skills and developing reading comprehension for students in Grades 4-12. The program instantly assesses student writing by evaluating the meaning of text, not just grammar and spelling. Students receive personalized feedback, hints, and tips throughout to encourage, instruct, and reward progress as they complete hands-on practice assigned and monitored by their teachers.

This innovative web-based program offers three activities for improving literacy skills:

- Summary Writing to develop reading comprehension
- Vocabulary exercises to expand word knowledge
- Essay Writing to build writing skills

WriteToLearn's next generation student interface allows students to quickly view their progress, helps them stay focused in their assignments, and reinforces the strong connection between reading, writing, and vocabulary.

Summary writing activities are automatically scored, providing students with an easy-to-read score and hints on how to further improve their summary.

Benefits of WriteToLearn:

WriteToLearn is designed to help students succeed. Features that help students improve their writing and reading comprehension skills include:

- Nearly 1000 reading passages to read and summarize from Pearson imprints across the curriculum
- Essay scoring and writing advice based on Six-Trait, English language learner, and College and Career Readiness rubrics
- Automated scoring that saves teachers time in scoring and provides students with immediate feedback
- Adjustable scoring parameters and the ability to turn support tools on or off based on student needs
- Alignment to new standards with activities that develop key college and career readiness skills

Support for English Learners

WriteToLearn's built-in language tools help to promote language proficiency:

- Instructions and feedback available in both Spanish and simplified Chinese
- Text-to-speech in English and Spanish
- Embedded picture/text dictionary
- Spot word translation
- Highlighting tools to mark main and supporting ideas
- Word prediction tool allows students to select correct word choices with fewer keystrokes
